Regards 29 annual permits for rec. Anglers -
I Guess you have nothing else to do but
Spend money !! We all know its the "Big"
Commercial boat who are getting us
all messed up. Bottom fishing & all - Not the
1 or 2 fish people - I use to fish & have been
here forever 2 mile limit & even saw guns
so we could not go near them boats
wise up men - but I think you know
and just want to make points anyway -
The working people need something to
do. I work for the rich they have time
sports & can afford all this. Put yourself
in the $20,000 - bracket & elderly who
in family will get 1 or 2 fish a year -
I take it You are not a sportsman ??
